A Personal Approach

Habib Bank AG Zurich is a family-owned heir to a tradition of commerce and banking dating back to 1841. Since our establishment in 1967, we have progressed from a single office operation to an international organisation with presence in 10 countries, across four continents.

We have been helping individuals, families and businesses manage their money for more than 50 years. During this time, we have developed close working relationships based on our six core values that are the building blocks of our business and culture – commitment, teamwork, respect, responsibility, integrity and trust.

Habib Bank AG Zurich combines innovative and efficient banking with a personal approach through a network of eight branches across the UK along with a team of dedicated Relationship Managers.

We are a global financial service company operating in Europe, South Asia, Middle East, Africa and North America. This reach provides an international perspective for our clients based in the UK and their business interests around the world.

Our approach is driven by a focus on 'service with security'.
