Habib Bank launches third-party fund transfer facility

Zurich Habib Bank AG Zurich (HBZ) has launched the 'HBZcms' (cash management system) via 'HBZsecure key', a third-party fund transfer facility over its Web site - www.habibbank.com.

HBZweb customers can now transfer funds to any bank account located anywhere in the world. The service offers a combination of multiple level of security - from 128-bit SSL (secure socket layer) security, the highest level of commercial security available on the Web today, to proprietary firewalls, user name, password protection and challenge-response-authentication-mechanism.
