

### What is the HBZ Fixed Term Deposit?

- » The HBZ Fixed Term Deposit is a fixed term account, which is opened for a period of 12 months, 6 months, 3 months or 1 month.
- » Your money earns a fixed rate of interest and is paid at the end of your deposit term.
- » You cannot access your money during the account term. You should not place your money in a HBZ Fixed Term Deposit if you may need to have access to it before the account term ends.

### Product Summary

#### Account Name

HBZ Fixed Term Deposit.

#### What is the interest rate?

Please contact your branch or relationship manager for the current available. The interest rates shown are the rates per year, even where the deposit term is less than a year.

The gross interest rate is the interest rate you are paid, without tax being taken off.

The AER (*Annual Equivalent Rate*) shows what the interest rate would be if interest was paid and compounded each year.

#### When is interest calculated and paid?

We calculate interest daily on the balance of your account, starting on the day we receive your deposit into your account. We will pay this at the end of the account term.

If the account term ends on a business day, we will pay you interest up to and including that business day. If the account term ends on a day that is not a business day, then we will pay you interest up to and including the next business day.

#### Can Habib Bank Zurich change the interest rate?

No. The rate is fixed for the duration of the account term.

At the end of the account term, if you choose to roll all or part of your maturing deposit into a new term, we will let you know what the new fixed interest rate is before your deposit rolls over.

#### What would the estimated balance be at the end of the account term, based on a £1,000 deposit?

The table below shows what would be paid back to you at the end of the account term. We have assumed you make a deposit of £1,000 with the interest rate given in the table below, and keep the deposit in the account for the whole account term.

DEPOSIT AMOUNT	TERM	RATE	INTEREST	BALANCE AT THE END OF THE ACCOUNT TERM
£1,000	12 months	5%	£50	£1,050.00
£1,000	6 months	4.5%	£22.44	£1,022.44
£1,000	3 months	4%	£9.97	£1,009.97
£1,000	1 month	3.5%	£2.97	£1,002.97

This is for illustrative purposes only and does not take into account your individual circumstances.
